Key Accomplishments from 2017-2018

- Developed Grant Process Manual for WSFM, program administrators, scorers and mentees to document roles, responsibilities, processes in one location.
- Re-designed fall WUI Grant Team meeting into a calibration-focused 2-day meeting for scorers and mentees. Meeting was held in Park City, Utah September 18-19. 35 attendees with 16 states represented. 2 attendees from LSR observed WSFM process. New format was well received and will continue for 2019.

Emerging Issues and Priorities

- Grant program review is needed in 2019 to look at process, grant criteria, etc. This will be conducted under direction of WSFM and recommendations presented to CWSF in November 2019.

Recommendations for Action by State Foresters

- No recommendations for action by State Foresters.
